Champagne Palmer & Co. was founded in 1947 by seven grape growing families who own Premier Cru and Grand Cru vineyards in the Montagne de Reims region of Champagne. The partners were united by a common vision – to create a champagne house known for its passion for harmony, balance and the pursuit of excellence. It should be noted that these characteristics still characterize the Champagne Palmer style. Also, Palmer's excellence and are guaranteed by awards at international wine competitions and evaluations by the most respected champagne experts.

The house specializes in a variety of champagnes – including Palmer Brut Réserve, known for its balance, complexity and elegant aromas.

Palmer & Co's vineyards cover over 415 hectares, mainly in the Montagne de Reims area, providing a diversity of different grape varieties that contribute to the unique flavor profile of Champagne. The brand's champagnes are recognized for their long aging process in deep limestone cellars, which enhances their depth and richness. Palmer & Co's style, dominated by the freshness and purity of Chardonnay, is seductive in its precision and clarity. On the other hand, the grace and strength of Pinot Noir, the generosity and significant reserve of Pinot Meunier the contribution of the wines gives a rich fullness and rare ripeness.

Environmental sustainability is at the core of Palmer & Co.'s operations, making efforts in vineyard management and production processes to reduce the ecological footprint. On the other hand, the architecture of the house and the historical cellars are a testimony of its heritage, combining traditional methods of champagne production with modern technologies.

*Winemaking in Georgia stretches back over 8,000 years of history. According to archaeological evidence, the first Georgian wines were made and stored in earthenware vessels called qvevri (or kvevri). The qvevri is Georgia's most important and best-known winemaking vessel, and it remains the centerpiece of traditional winemaking in Georgia.

Qvevri are uniquely Georgian vessels, different in shape and function from the clay amphorae used elsewhere. Used for wine fermentation, maturation, and storage, qvevri are among the world's earliest examples of winemaking technology.

100-point wine-scoring scale:

95–100 – Exceptional
90–94 – Excellent
80–89 – Very good
70–79 – Acceptable
60–69 – Unremarkable, but not faulty
50–59 – Not recommended.

Coravin - Unparalleled in craftsmanship and design, coravin uses proprietary patented technology to access and pour wine from a bottle without pulling the cork. Wine enthusiasts can now enjoy wine sealed with corks without feeling the need to commit to the whole bottle, allowing them to explore wines of any vintage, varietal or region, one taste at a time.

Grower Champagnes - are those Champagnes that are produced by the same estate that owns the vineyards where the grapes are grown. Récoltant-Manipulant is the term in French, and Grower Champagnes can be identified by "RM" on the wine label. While large Champagne houses, such as Mumm, Moët et Chandon, Veuve Clicquot and others may use grapes sourced from as many as 80 different vineyards in the Champagne region to create a consistent house style, Grower Champagnes tend to be more terroir-focused, being sourced from a single vineyard or closely located vineyards around a village, and made with grapes which vary with each vintage.
